This impressive structure was the Avondale Mills Kindergarten and Community Club House. Both social and educational events were held here daily for over fifty years.

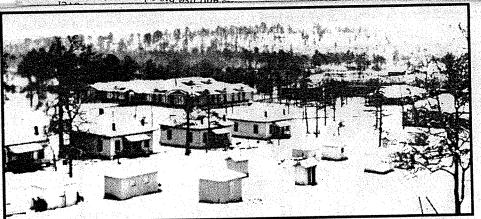

This early view of the Pell City Manufacturing Company (Avondale) shows the great smokestack (one of the tallest in the world) and the unique "sawtooth" construction of the mill itself. This design was a great inovation in 1902 when it was built because it gave natural light and ventilation in the mill. In the days before modern electric lights and air conditioning, this revolutionary design was a major inovation in the south and cotton mill owners from all over the country and as far away as England came to study this modern mill. Note the Hall Hill School to the right of the smoke stack. This school burned in the 1920's.

ii wide and give out oxygen:

to share with them.

.SIBIOURIA

This snow covered view of the Avondale Mills village, school and the mill itself (in the trees on the right) was made about the time of the construction of the school which drew many people to settle in Pell City and work for the mill. Note the out buildings and lack of electrical wires!

The Rennie House (left) and the Thompson-lola Roberts house were constructed for the first presidents of the Pell City Manufacturing Company (later Avondale Mills). Both houses were constructed shortly after the beginning of this century and torn down to make way for the Colonial Bank building in the 1970's.

degree in administration, has had an active educational background and supplemented with a life in aviation. His flying career started in 1959, later serving over 20 years in Naval Aviation. Ted had the opportunity of flying "Bear Bryant" for over 12 years. Contributing many years of work and time Ted grew from flight instructor to part owner, president and general manager of Dixie Air Inc. in Tuscaloosa. When the position at St. Clair County Airport became available, Ted saw it as a rare opportunity in disguise.

line of photography including portrait, aerial, and advertising full color brochures. Too many times, we are accustomed to having conveniences close by, we just take them for granted. Take full advantage of St. Clair County Airport, it is here for you. Our goals are to promote the growth of the airport and to enhance the familiarity with our local people. Any groups or associations that would like Ted Jones to come and speak on behalf of the airport just give us a call or come by... the coffee is always on!

Pastor's Corner Continued From Previous Page

"Poems are made by fools like me. But only God can make a tree."

It is well for Christian teachers to remember that programs are made by finite men, but only God can save a soul of a student and cause him to grow in spiritual things. Even so, it is through imitation of the good man that students also become trees planted by the river of water.

is group of distinguished Alabamians gathered to honor Miss a Roberts on the day the name of the South St. Clair Elementary hool was changed to honor her. (Left to Right) Roy Mann, Otis hool was changed to hool was cha

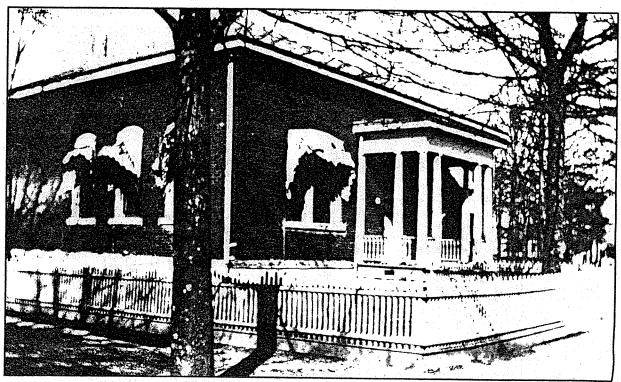

This large group of gentlemen gathered in front of the First Baptist Church around 1950. In those days, the men of the Baptist, Methodist and Wesleyan Methodist churches would Baptist, Methodist and Wesleyan Methodist churches would gather for joint meetings in months that had a fifth Sunday. The gatherings promoted community relations. How many of these men can you identify?

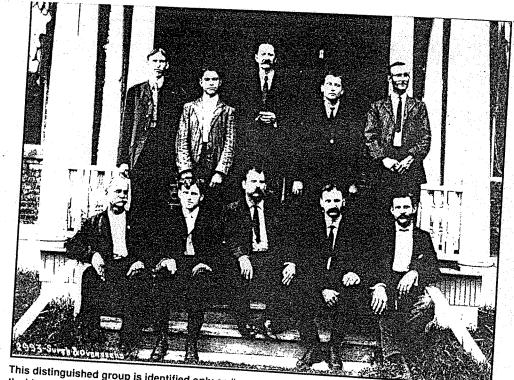

The Wesleyan Methodist Church (now Bible Methodist) was located on the corner where Jack's Hamburgers now stands. This building served from 1916 until 1965.

This view of the Avondale Mills office building, complete with picket fence and stripped awnings was made about 1905.

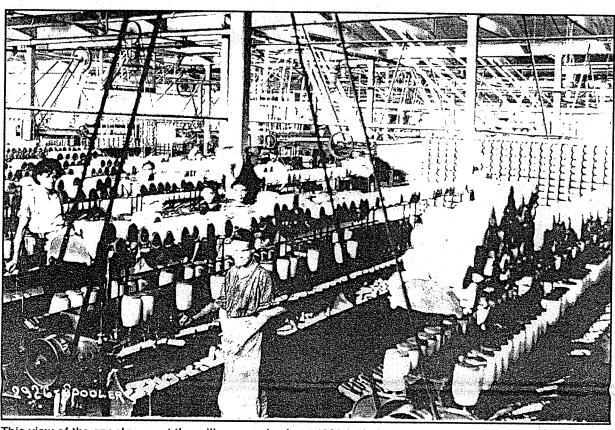

This distinguished group is identified only as "supt's and overseers" of the cotton mill. If you know the identities of these men or the year the picture was taken, please contact Guin Robinson at Avondale Mills. We believe the picture was taken about 1909.

This view of workers in the mill cloth room was made about 1909 and shows the belts and pulleys that ran the machines powered by steam. Note the barefoot boys in the front of the picture, this was before child labor laws were passed.

s fountain stood in the small triangle park on Comer Avenue, just across from the Avondale Mills rance. In the background is the Avondale Clubhouse. The picture dates from around 1910. One of the als of the Pell City Centennial Commission is to restore this fountain and the surrounding park. Avondale Is and Gold Kist have committed their support but more is needed. The fountain was a gathering place he summer and the commission hopes it will become a focal point for the Centennial Celebration.
