PELL CITY, ALABAMA, TH

School Building Program Proposed For South St. Clair County

Building May Start During Mid-Summer.

Mr. Mack Davis and Mr. England was before the County Board of Education Friday, last week, in the matter of a high school building for South St. Clair County. The Board proposed to appropriate \$5,233.75, the State paying \$25,000.00 and the citizens to raise the remaining sum which will be \$19,766.25, all sums totaling \$30,000.00. The Board heretofore has not intimated its willingness to pay anything on a building, due to the fact, it was stated, the facts of high school matters here were not known to it.

All arrangements to build the first unit must be completed by the 25th of this month, or the whole matter must be delayed another year, as the state appropriations must be made before the first of July each year.

As to commencing the first unit of the building, \$15,000.00 is available when the citizens raise \$5,000.00 which is all that will be necessary for them to raise. The Mayor and Council have agreed to raise the remaining \$11,666.66 out of the sale of the present school property, which belongs to the Town.

It is proposed that persons may deposit personal notes to the amount of their ability to contribute toward raising the \$5,000.00 and satisfy the notes with labor, such as hauling and other work on the building, the notes being canceled when a like amount of work is done.

Pell City Defeats Samose (Talladega)

The home club defeated Samose, of Talladega, in a game that took more than two hours to capture. The final score being 5-2.

Ferrell stole home for Samose's first run after he doubled and advanced to third in the first inning.

Pell City tied the count in the second inning. The game remained a tie until the fifth when Samose scored another run.

E. Morris grounded to I. Patterson to M. Patterson, the first batter up, and Lanier struck out. Jones singled and advanced to second on a balk. McCardle singled scoring Jones and went out trying to steal second.

Pell City came in for their half with Harvey up, he tripped to right, going out on Walker's easy grounder to Jones to Lanier. Walker attempted to steal second, and did, going to third on a wild throw to second.

L. Dickey walked and stole second base with walker and Dickey scoring on I. Patterson's single.

Stevens doubled to right Patterson going out at home. H. Dickey goes safe on a fielder's choice and Barber doubled scoring Stephens and Dickey.

DAY JUNE 5, 1930

NO. 18.

By Albert T. Reid

Most Undesirable Citizens

Oh, my dears! The Country is perfectly gorgeous! One place, though, they had a fierce dog, and he chased Henry clear to the car. I don't know why farmers are permitted to keep such ferocious, vicious animals.

I know where they're going to have the grandest green corn. I'll just motor back there a little later.

BANKS

A. P. Giannini told a Congressional committee the other day that branch banking would eventually supersede the present system of independent local banks in the United States, as it has done in Canada and largely in England. Small villages, he said, cannot support a bank with sufficient resources to meet the growing industrial needs of small towns.

Mr. Giannini is probably right. There are good-sized cities in the United States whose progress has been held back by lack of adequate local banking capital and by the narrow outlook of local bankers. The prejudice against "chain" ownership of any kind of business extends to banks as well as to stores, but as in the case of chain stores, the remedy is in the hands of the community. Independent banks, like retailers, can compete with "chain" institutions if they will adopt the modern methods of the chains and provide themselves with sufficient resources to make competition effective.

CRIPPLES

One of the things which we are beginning to learn is that the worst thing we can do for a person who has been disabled by disease or accident is to coddle him or her, and the best thing that can be done is to train the remaining faculties to useful work.

The Veterans Bureau has finished its rehabilitation work with men who were injured in the World War, and reports that every man who is capable of any sort of productive effort is now at work somewhere. But the Federal Government is cooperating with the states to provide the same sort of rehabilitation training for victims of industrial accidents and of crippling diseases like infantile paralysis. Only a few states are giving cooperation, but in those surprising results have been achieved.

Leaving out the benefit to society by not having to support the cripple in idleness, there is a definite value to the injured person in the discovery that he is still able to earn a living.

Resolutions Adopted By Co. School Board

IT IS RESOLVED by the St. Clair County Board of Education in session at Milledgeville on Friday, May 30, 1930, that this Board recognizes the present and immediate need of an accredited Junior-Senior high school of sufficient size to serve the

"Shake a leg" neighbor, while the iron is hot get buisy on the school building.

Thanks to the County Board of Education—the children of South St. Clair may yet be privileged to receive the advantage of decent high school conditions.

It is now time for those intrusted with responsible positions, in the matter of our chlools, to demonstrate their ability to fill those positions. It is seldom anyone has so great an opportunity in matters of such importance.

It seems that the County Board of Education has now put the matter of a high school building for South St. Clair squarely up to the citizens of that division of the County and it is their move to exercise their spirit of progressiveness and cummunity pride at an opportunity to accomplish something of greatest importance to any commnity. We are now face to face with an important responsibility to the future citizens of South St. Clair. They are children to day, and under our guardianship, so, let us forget every thing except our duty.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers — washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at
